MM-2 CD JUKEBOX

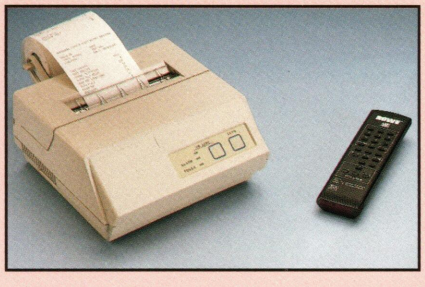
MM-2 CD's dramatic title display is designed to merchandise music and stimulate maximum customer play.

- Eight full-sized CD jackets are displayed beside easy-to-read title strips.
- The motor-driven pages can be flipped by push button controls and can be expanded to accommodate up to 100 CD albums and title strips.
- In the "attract mode," the title pages turn automatically or move to a specific page number.

Set on Autoplay, the MM-2 CD automatically plays a random or pre-selected track at specific time intervals.

Integrate the MM-2 CD with the ROWE/AMi Wallette unit and add the advantage of remote selection to any location.

Equipped with a reliable ROWE bill acceptor, the MM-2 CD takes $1 and $5 bills and is available with a 500 or optional 1000 bill stacker.



MM-2 CD's optional printer kit provides full MIS reports that include: cash totals, selection frequency of each track and album, and the condition of every disc. Recommended printers may be purchased locally.

The optional remote control is the most advanced available. Remote selection, volume and reject controls are just a few of its features.
